

BlueJeans Relay Touch

Touch-to-join solution for conference rooms,
powered by the BlueJeans Relay platform

Introduction

BlueJeans Relay works with your conference room systems and corporate calendar to make video conferencing fast, easy, and consistent. With support for most H.323 and SIP-based systems from leading manufacturers like Cisco, Polycom, and Lifesize, BlueJeans Relay Touch takes the hassle factor out of the conference room. Say goodbye to dialing and directories, the dreaded “quick reference” cards for each system, and impatient demands for IT support services: with the BlueJeans Relay Touch app running on most any Android tablet, participants simply enter the room, view the calendar, and touch their meeting to join. It's really that simple.

Benefits of BlueJeans Relay Touch

- Touch-to-join: a fast and foolproof way to join a BlueJeans meeting
- Displays all scheduled meetings for quick access and at-a-glance free/busy status
- Extends consistent simplicity to room systems from multiple vendors
- Works with most H.323 and SIP-based video conferencing room systems
- Available at no extra charge for BlueJeans customers

Solution Requirements

- BlueJeans account, provisioned for BlueJeans Relay services
- Listener Service: Local host running Windows Server 2008 or later, Debian, Ubuntu, RedHat, Fedora, or CentOS
- Calendars: Microsoft Office 365, Exchange 2013, Exchange 2010, or Google Calendar
- Tablets: Any Android tablet running 4.2 and higher, compatible Cisco and Lifesize tablet controllers

Works with Your Room Systems

BlueJeans Relay Touch works with most H.323 and SIP-based systems, including:

- Cisco/Tandberg (non-CTS), including EX, SX, IX, C, and MXP
- Polycom HDX and RealPresence Group
- Lifesize Icon, Room, Team, and Express
- StarLeaf GT Mini 3300
- TelyHD Pro, Tely 200

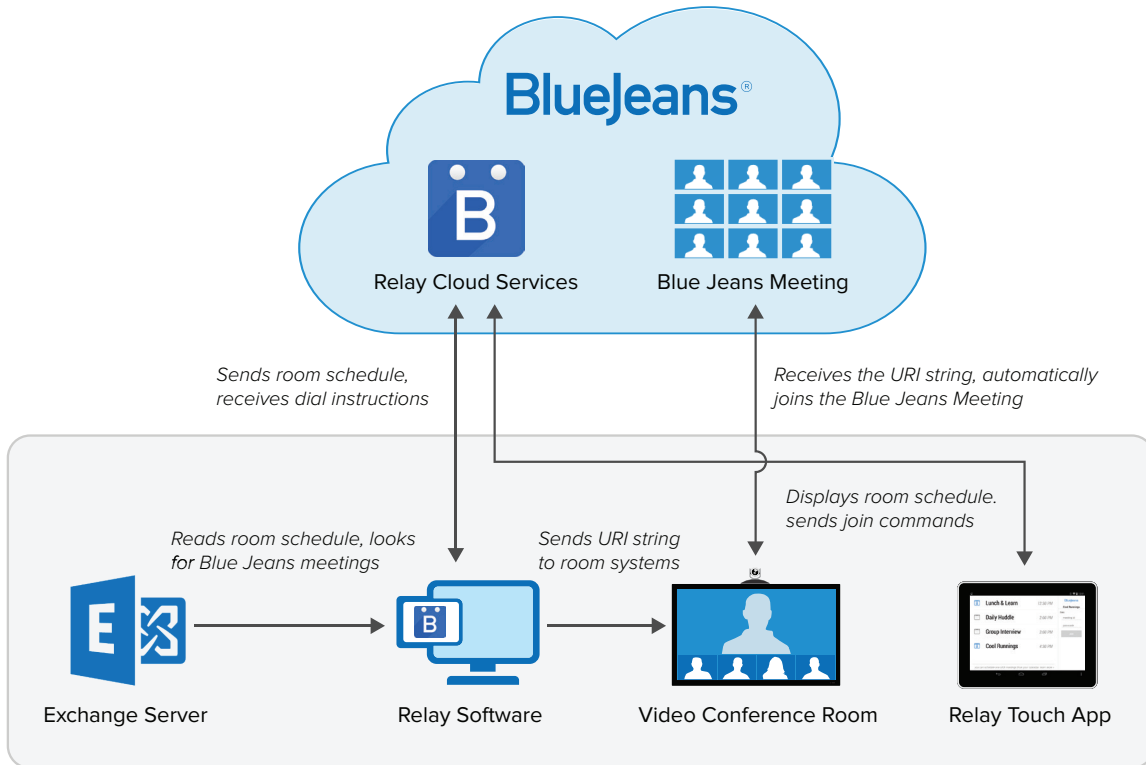

When the conference room has been scheduled for a BlueJeans meeting, participants can join via the room system with a simple touch.

Deployment Options

The BlueJeans Relay download package includes the software to install on your on-premise server, plus step-by-step configuration instructions. Once your account is provisioned, software installed, and tablets procured for each conference room, most deployments can be configured in about an hour.

Optionally, with a Pro or Premier service plan, you can receive guided configuration assistance from a BlueJeans Relay specialist. If you have already purchased Advanced Services or Deployment Services or have a Pro or Premier service plan, you can receive this configuration assistance at no extra charge.

About BlueJeans

At BlueJeans Network, our mission is to make video communications as easy and pervasive as audio communications, enabling more effective collaboration at work, at home, and on the road. Our cloud-based conferencing service makes this possible by enabling customers to connect with each other seamlessly anytime, anywhere, and from practically any device.
