Leddura 2Meet - the complete collaborative meeting room solution.

The new CTOUCH Leddura 2Meet makes business collaboration more engaging than ever. Based on Skype for Business/Microsoft Lync technology, it brings you the ideal tools for interactive and productive meetings:

- Videoconferencing
- Multi-touch whiteboard
- Content sharing
- Room-booking system

All in one collaborative meeting system.

Room-booking system

Voice recognition

Internal JBL speakers and microphone

JBL virtual sound

Interactive drawing - Multi-touch Whiteboard

Launch the multi-touch whiteboard instantly, with one touch, and simply start drawing. Add pages, share it with meeting participants.

Interactive videoconferencing - like never before

Call other Skype for Business or consumer Skype users, H323 devices, phone numbers, or anyone who has email and internet connection. Simple as that.

Interactive sharing - easy as 1-2-3

Use your iPhone, Android, Windows phone, Mac or PC to display easily via your Wi-Fi. Up to four devices at a time!
